

Solar Sister Solution Light.Hope.Opportunity

2014

WHY?

SOLAR SISTER “LAST MILE” INNOVATION

A social enterprise addressing energy poverty with a women driven distribution network for portable clean energy solutions.

The Art of being a Woman:
An interest You and your Avon Representative share

Beauty is important to your neighborly Avon Representative. How to put on makeup, what's new in color, fashion, complexion care—these are her interests, too. Every day your Avon Representative perfects the art of being a woman, at home. Then, when she calls on you—she shares her time and knowledge with you. She always brings beauty ideas, cosmetics and fragrances to please you. So take a little time for yourself. Have an Avon beauty chat.

AVONcosmetics
MADE IN THE U.S.A. NEW YORK, N.Y.

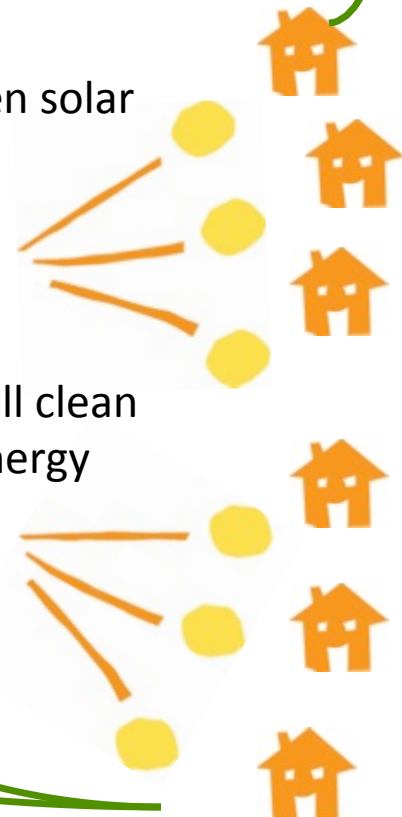

HOW IT WORKS

Solar Sister invests in women solar entrepreneurs

Sell clean energy

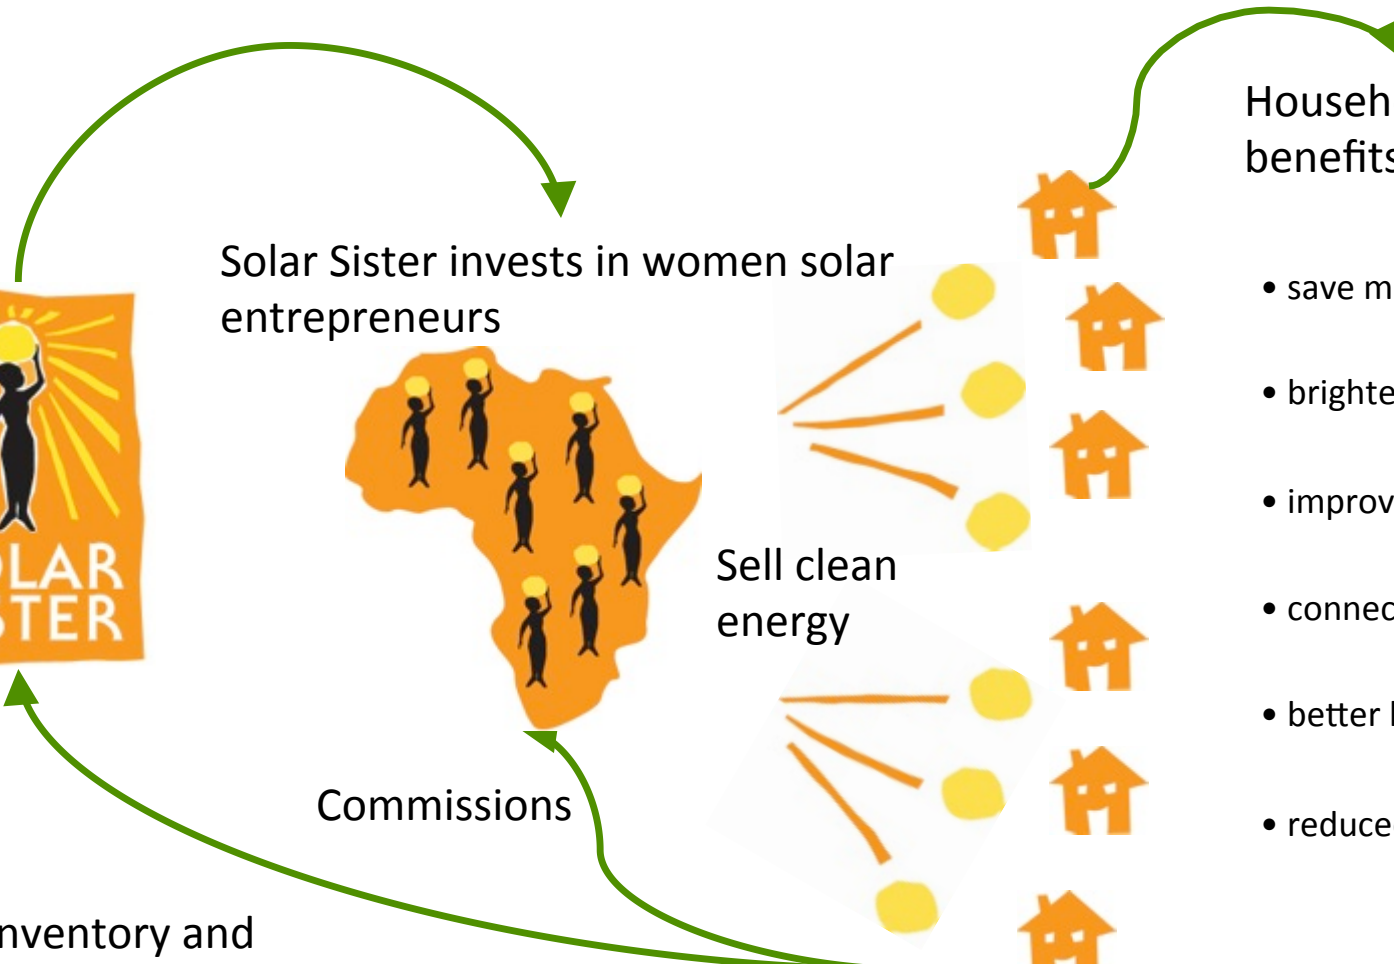

Household benefits

- save money
- brighter light
- improved education
- connectivity
- better health
- reduced CO2
