

## Project at a Glance

ACTIVITY NAME: Support to the design of an RBF mechanism for the implementation of the Indonesia Clean Stove Initiative  
 COUNTRY: Indonesia  
 WORLD BANK PROJECT ID: P129829

Activity Details			
Region:	East Asia and Pacific	Project ID:	P129829
Country(s):	Indonesia	Product Line:	Technical Assistance (TA) (non-lending)
Responsible Unit(s):	EASIS	Activity Approval Date:	06/13/2013
Status:	Closed	Task Team Leader:	Yabei Zhang
ESMAP Reviewer:	Nicolina Angelou	Fiscal Year of Approval:	2013
Sector:	General Energy, Other Renewable Energy	Theme:	Climate Change, Gender, Rural development
Program:	Energy Access	Sub-program:	
Relevance of Social/Gender Aspects:	High <b>High:</b> Social/Gender aspects are highly relevant and should be incorporated at the PCN stage <b>Medium:</b> There is scope to consider social/gender aspects and the PCN should address them <b>Low:</b> Minimal opportunity to incorporate specific social/gender aspects <b>Description:</b> Cookstoves program in EAP considers gender and social program		
Activity Description:	The Indonesia Clean Stove Initiative (Indonesia-CSI) has the objective to help scale up access to clean and efficient stoves in the country through capacity building, policy development and support to selected government action plans.		

Outputs				
Output Name	Category	Type	Output Target Group	Delivered
<b>1. Monitoring and Evaluation module and baseline report / Awareness campaign design</b>	Planned	Implementation Advisory Report	Government of Indonesia	No
Output Details: Support to the design of RBF mechanisms scalable at the national level				
<b>2. RBF Operation manual / Lesson learnt from call for stove design / Business case for Market Aggregators</b>	Planned	Implementation Advisory Report	Government of Indonesia	No
Output Details: Support to the set-up a successful RBF pilot				

Outcomes									
Outcome Name	Indicator(s)	Amount Financing Informed	Category	Baseline Value	Baseline Value Date	Target Value	Target Value Date	Date Measured	
<b>1. Client Capacity Increased</b>	Design capacity strengthened		Planned	RBF is unknown/unavailable to coostove stakeholders	07/01/13	RBF-led transactions occur in at least one of the 4 pilot sub-areas and cover at least two types of stoves	12/31/14		
Outcome Details: Client capacity increased through implementation of a small scale RBF mechanism in the Pilot area									
<b>2. Policy/Strategy Informed</b>	Government policy/strategy informed		Planned	Lack of interest of government on RBF mechanisms to help scale up access to clean/efficient stoves	07/01/13	Government commitment to RBF mechanisms and set-up a PMU to define and prepare the roll-out of such scheme	06/30/15		
Outcome Details: Inform government policy on RBF mechanisms in support of Indonesia's CSI
